Testimonials

" Our family joined the Frankston Toy Library after our little girl had been diagnosed with severe hearing loss in both ears at birth we needed to provide her lots of extra sensory stimulation and this was the easiest and cheapest option apart from early intervention classes. I must say we love it because every fortnight we could choose different toys to suit her stage of development at any given time. At 18mths her hearing problems all cleared up but we still come along because its such delight to see our girls get enjoyment choosing what they want to play with. "

Michaela Macpherson

" I LOVE the Frankston Toy Library because it has a fantastic and frequently updated range of quality fun and educational toys and accessories for all ages. Not to mention a fabulous team of friendly and helpful staff and volunteers. "
